(a) Including Federal Capital Territory. (b) For year ended previous 31st December. (c) Estimated.

Note.—In the total figures published above, the discrepancies in the returns of wool by land-holders compared with those obtained by taking exports plus local consumption returns have been eliminated. As the result of exhaustive inquiries in New South Wales, South Australia, Western Australia, and Tasmania, the statistics for those States have been revised by their respective Statisticians. Pending similar action the figures for the remaining States have been amended provisionally on the data available at the moment.

PRINCIPAL DAIRY PRODUCE, 1924 to 1929-30.

⁽a) Exclusive of amounts drawn by working proprietors.

⁽b) The average number of hands employed during the year 1928-29 has been computed in accordance with a resolution of the Conference of Staticians held in 1928. The effect of this change in method is designed to show the average number of persons employed over the whole year rather than the average over the period worked as in the case of a seasonal factory which is engaged only for a portion of the year. The employment figures for 1927-28 and for previous years have been recomputed on a similar hasts year. basis.

Section VII. Retail Price Index-Numbers-Food, Groceries. Housing, etc.

Note.—Commencing with the first quarter of the Year 1925 the basis of computation for housing accommodation was altered. Previously, the weighted average rent of for housing accommodation was altered. Previously, the weighted average rent of all houses had been taken for the rent constituent. In the tables on the following pages (excepting p. 77) the weighted average rent of 4 and 5 roomed houses only has been taken. The index numbers in the table on page 77 prepared for the use of the Commonwealth Court of Conciliation and Arbitration include the weighted average rental of all houses with base of table—Six Capital Cities in 1911 = 1000. With the exception of this table, rotail price index numbers gives 1920 house here. exception of this table retail price index numbers, since January, 1930, have been computed to a new base, viz.—Six Capital Cities—1923-1927 = 1000.

Retail Price Index-Numbers.(a) - Capital Cities, 1911 to 1929.

Base in each Section :- Weighted Average of Six Capital Cities during five yearly period-1923-1927=1,000.

NOTE .- The index-numbers of

⁽a) Weighted Average for five towns.

⁽b) Basis of table.

Note.—This table is prepared for the Commonwealth Court of Conciliation and Arbitration on a different basis from those given on the five preceding pages. As indicated by the heading in the table the rent constituent is based upon the weighted average of all houses. It is comparable with those published in issues of the Quarterly Summary previous to No. 99, but not directly comparable with those on pages 72 to 76 of this issue, owing to the difference in the basis of housing accommodation.

Retail Price Index-Numbers (Food, Groceries, and Housing—all Houses) for each of Thirty Towns for the periods specified, with Weighted Average of Food, Groceries, and Rent of all Houses for the Six Capital Cities in 1911 as Base = 1,000.
